***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: the present invention pertains to a device that specifically requires a first, second and third flap with edge portions attached to the peripheral surface of the crown and foldable relative to the crown portion to have either the inner peripheral surface or outer peripheral surface of the flap selectively engaged onto the outer peripheral surface of the crown or outwardly exposed. It is the examiner's opinion that the art of record considered as a whole, alone, or in combination, neither anticipates nor renders obvious an three flaps, used in combination with a hat member, having inner and outer peripheral surfaces that are relative to a crown of a hat to be selectively engaged with the outer peripheral surface of a hat or exposed outwardly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
